

# DIAGNOSTIC MICROBIOLOGY —AND— INFECTIOUS DISEASE

## Volume 27 (1997) Contents

---

NUMBERS 1/2, JANUARY/FEBRUARY

### ANTIMICROBIAL SUSCEPTIBILITY STUDIES

- Validation of Etest for Seven Antimicrobial Agents Using Regulatory Criteria for the Assessment of Antimicrobial Susceptibility Devices 1  
*Douglas J. Biedenbach, Ian H. Schermer, and Ronald N. Jones*

### NOTES

- Antimicrobial Activity of RU-66647, A New Ketolide 7  
*Ronald N. Jones and Douglas J. Biedenbach*
- Evaluation of Immuno-1 Toxoplasma IgG Assay in the Prenatal Screening of Toxoplasmosis 13  
*Lokinendi V. Rao, Olapade A. James, Linda M. Mann, Amin A. Mohammad, Anthony O. Okorodudu, Michael G. Bissell, and John R. Petersen*
- AMPLICOR™ MTB Polymerase Chain Reaction Test for Identification of *Mycobacterium tuberculosis* in Positive Difco ESP II Broth Cultures 17  
*Antonio Hernandez, John S. Bergmann, and Gail L. Woods*

### GLASGOW SYMPOSIUM

#### **Empiric Therapy of Community-Acquired Respiratory Infections and Otitis Media: Towards More Logical Choices. European Congress of Chemotherapy, Glasgow, Scotland, May 16, 1996**

- Can Antimicrobial Activity be Sustained? An Appraisal of Orally Administered Drugs Used for Respiratory Tract Infections 21  
*Ronald N. Jones*
- Efficacy of Beta-lactam Antibiotics: Integration of Pharmacokinetics and Pharmacodynamics 29  
*Otto Cars*
- The Antibiotic Treatment of Acute Otitis Media and Sinusitis in Children 35  
*Robert Cohen*
- Role of Oral Antibiotics in Treatment of Community-Acquired Lower Respiratory Tract Infections 41  
*Delfino Legnani*
- The Future—Can We Learn From the Past? 49  
*William A. Craig*

## NUMBER 3, MARCH

### BACTERIOLOGY

- Rejection Criteria for Endotracheal Aspirates in Neonates 55  
*Kenneth H. Rand*

### MYCOLOGY

- Variations in DNA Subtype and Antifungal Susceptibility Among Clinical Isolates of *Candida tropicalis* 63  
*J. Zhang, R.J. Hollis, and M.A. Pfaller*

### VIROLOGY

- Serological Diagnosis of Hepatitis C Virus in Patients with Liver Disease in Saudi Arabia: Evaluation of Antibody Determination by Recombinant Immunoblot Assays in Relation to RNA Detection by Polymerase Chain Reaction 69  
*Mohammed N. Al-Ahdal and George Kessie*

### ANTIMICROBIAL SUSCEPTIBILITY STUDIES

- A 1994-1995 Survey of *Haemophilus influenzae* Susceptibility to Ten Orally Administered Agents: A 187 Clinical Laboratory Center Sample in the United States 75  
*Ronald N. Jones, Michael R. Jacobs, John A. Washington, and Michael A. Pfaller*
- Assessment of the Synergistic Interactions of Levofloxacin and Ampicillin Against *Enterococcus faecium* by the Checkerboard Agar Dilution and Time-Kill Methods 85  
*Charles E. Smith, Barbara E. Foleno, John F. Barrett, and Mary Beth Frosco*
- Comparative Evaluation of Etest for Susceptibility Testing *Neisseria meningitidis* with Eight Antimicrobial Agents: An Investigation Using U.S. Food and Drug Administration Regulatory Criteria 93  
*Steven A. Marshall, Paul R. Rhomberg, and Ronald N. Jones*

### NOTE

- Use of Ceftizoxime Screening for the Detection of Cephalosporin-Resistant Pneumococci 99  
*Gordon E. Schutze, Mary Jo Lewno, and Edward O. Mason, Jr.*

## NUMBER 4, APRIL

### BACTERIOLOGY

- Recovery of Nosocomial Fecal Flora from Frozen Stool Specimens and Rectal Swabs: Comparison of Preservatives for Epidemiological Studies 103  
*Marc J. M. Bonten, Catherine Nathan, and Robert A. Weinstein*

Comparison of Biological and Chemical Assays for the Quantitation of Rifapentine in Human Plasma	107
--	-----

*Michael T. Kenny, Donald L. Reynolds, Marcia A. Brackman, and Jacqueline K. Dulworth*

## MYCOBACTERIOLOGY

Evaluation of the Roche AMPLICOR™ MTB Assay for the Detection of <i>Mycobacterium tuberculosis</i> in Sputum Specimens from Prison Inmates	113
--	-----

*Michael B. Smith, John S. Bergmann, Steven L. Harris, and Gail L. Woods*

## VIROLOGY

Evaluation of the Etest for Detection of Tetracycline Resistance in <i>Mycoplasma hominis</i>	117
---	-----

*Ken B. Waites, Donna M. Crabb, Lynn B. Duffy, and Gail H. Cassell*

## ANTIMICROBIAL SUSCEPTIBILITY STUDIES

Susceptibility of Beta-hemolytic Streptococci to Nine Antimicrobial Agents Among Four Medical Centers in Salt Lake City, Utah, USA	123
--	-----

*Karen C. Carroll, Patricia Monroe, Samuel Cohen, Mark Hoffman, Leslie Hamilton, Kent Korgenski, Larry Reimer, David Classen, and Judy Daly*

Antimicrobial Characteristics of Quinupristin/Dalfopristin (Synercid® at 30:70 Ratio) Compared to Alternative Ratios for In Vitro Testing	129
---	-----

*Christine Jamjian, Mary S. Barrett, and Ronald N. Jones*

Influence of pH on the Antimicrobial Activity of Clarithromycin and 14-Hydroxycarithromycin Against <i>Haemophilus influenzae</i> Using an In Vitro Pharmacodynamic Model	139
---	-----

*Mark W. Garrison, Connie L. Malone, John Eiland, and Donald E. Anderson*

## NOTES

<i>Mycobacterium avium</i> Complex Endocarditis: Spurious Diagnosis Resulting from Laboratory Cross Contamination	147
---	-----

*Sara A. Hedderwick, Hector F. Bonilla, Neil L. Barg, Robert D. Arbeit, and Carol A. Kauffman*

In Vitro Evaluation of Contemporary $\beta$ -Lactam Drugs Tested Against Viridans Group and $\beta$ -Haemolytic Streptococci	151
--	-----

*Michael A. Pfaller and Ronald N. Jones*
